

JSTC - KS4 Curriculum

JSTC offers a wide range of subjects at KS4 enabling students to enjoy their studies and achieve in areas they find stimulating. Having aspirations to seek a specific career may help guide choices although many students pick subjects that they have demonstrated good progress in and find rewarding. The option blocks are created to enable students to choose a balanced programme of study so that they do not limit the next step of their education.

As Key Stage 4 approaches there are many sources of help and guidance for students to access so that they make the right choices for them.

The range of courses that we are proud to offer at JSTC in KS4 include:

Subject	Qualification
English Language	GCSE
English Literature	GCSE
Mathematics	GCSE
Biology	GCSE
Chemistry	GCSE
Physics	GCSE
Double Science	GCSE
